

iEmpire Cloud Backup *for home*

The Australian standard for keeping personal data safe & secure.

Why iEmpire Cloud Backup?

Cloud Backup is the simplest, most affordable and automated way of backing up your precious data. Like clockwork your data is encrypted, compressed and sent to our secure offsite servers.

What is your data worth to you?

You can insure your Computer but you can't insure your memories. All the important information in your life is now stored on a computer. Whether it's your photos, music or personal files and financial records, everything is digital. With iEmpire Cloud Backup you can be sure your digital life will always be there.

How safe is your data?

We take the security of your data extremely seriously. Our data centres are owned and operated by the Computer Empire Group and are fitted with climate controlled systems, situated on dual power grids with redundant power, servers and internet connections. The Primary data centre located in Brisbane is backed up to the secondary data centre during the day. Your data is encrypted to bank grade standards before even leaving your home. This was how data was meant to be stored.

KEEP YOUR DIGITAL LIFE SAFE FROM ONLY \$9.95 Per month

- ✓ **AUTOMATIC** – Backups done daily, even when you forget
- ✓ **SECURE** – Bank grade encryption, only you can get in
- ✓ **OFFSITE** – Data is sent away to a safe location
- ✓ **ONLINE** – Access your data 24 hours a day \ 365 Days a year
